Ultimate control

The IS-290i Elite offers increased features to support your communications. With NeoSlogan you can add a customised logo to your envelope, to include your company name, special greetings or marketing slogans. NeoStats accessed online, provides in depth information on your postal expenditure for cost control and spend optimisation. Also, with our Email Marketing application, you can send your communications with Neopost both via physical and digital.

Accurate pricing

The IS-290i Elite comes loaded with all the Royal Mail UK inland and international postal rates, giving you the exact price for all its services. The integrated digital weigh platform accurately sets the machine to the correct value so there's no risk of over or under-stamping. Calculating the correct postage is easy with our on-screen rate wizard.

Manage your mail on-line

myneopost is an on-line service which allows you to analyse your postage expenditure, order supplies and service.

Postage savings

IS-280 utilises the Mailmark Royal Mail tariff, which is guaranteed to deliver the lowest price in the franking channel (eg over 30% cheaper than stamps on standard 2nd class letters).
