With its state-of-the-art technology and **myneopost** online services you can be sure to have the best solution to meet your demanding needs.

MIX IT UP – IS-350 WILL SORT IT OUT

Fast, accurate weighing and franking. Using Differential Weighing, simply place all your mixed weight mail on the weighing platform, remove an item and the correct rate is calculated.

The IS-350 is as ready as you are. With Smart Start technology, each time an envelope is removed from the weighing platform the IS-350 starts and is ready to process your mail.

PRICING YOUR MAIL HAS NEVER BEEN EASIER

Don't be confused by postal rates. Let the IS-350's Rate Wizard give you a hand so you don't have to be a postal expert. Whichever rate you need, the IS-350 will figure it out.

Save even more time by eliminating keystrokes when you select the mail class you need from the rate shortcuts menu.

From single envelopes to larger packages, you'll have the flexibility you need to weigh and manage your mail with ease.
